

Sneaker Modular sofa
Designed in 2023
by Cameron Foggo

The Sneaker Modular Sofa has a contemporary design with timeless elegance. This piece is a warm nod to Mario Bellini's 'Le Mura' - a 1972' design reflecting the chunky stones of European architecture with an ergonomic solution to fitting into different environments.

With a deep and inviting seat and backrest, the Sneaker provides exceptional comfort while maintaining a sleek, modern aesthetic. The simple yet versatile modularity allows for easy customisation; several small components may be chosen to ground a large environment.

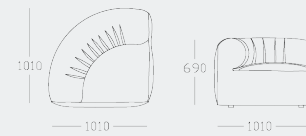

As a striking centrepiece, the Sneaker Sofa enhances living areas with its unique style and inviting presence.

Construction

Construction: The Sneaker sofa is made from New Zealand Pine, high-density foam, memory foam and crumbed memory foam.
Fabrics: See our selection of house fabrics and leathers or customise with any suitable upholstery fabric.

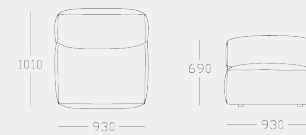

Modular components

10036-49 Sneaker corner
