

Georgie Modular sofa
Designed in 2024
by Cameron Foggo

The Georgie is likely the most comfortable sofa you've encountered. It gets its name from a large and gentle Greyhound named Georgie, and is based on her cozy bed - though she generally preferred a sofa.

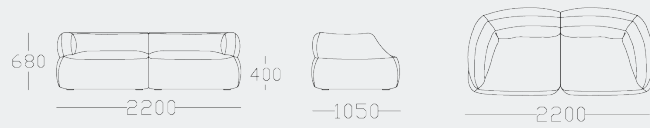

Like a cozy dog bed, the focus is on the soft latitude and measured size. With its low seat and back, the Georgie encourages you to fit yourself in its corners and place both arms upon the backrest and arms for maximum relaxation. The support of memory foam has also been combined with the softness of feather filling, taking comfort to a new level. With the Georgie Sofa, you don't have to turn around and around and around to get comfortable.

Georgie construction

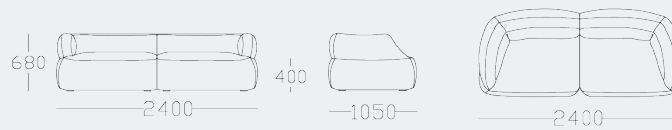

Construction: The Georgie modular sofa is constructed from New Zealand pine, high-density foam, memory foam and feather.
Fabrics: See our selection of house fabrics or customise with any suitable upholstery fabric.

Standard sofas
