

Exhibition Sofa
Designed in 2024
by Cameron Foggo

A relaxed, feather-filled design for casual living. The sculptural form of the exhibition showcases a distinctive seat and arm junction that pays homage to traditional sofa design, adding a timeless element to its contemporary style.

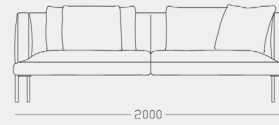

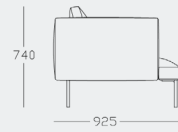

Whether you're curling up with a book or entertaining friends, the Exhibition Sofa strikes the perfect balance between classic charm and laid-back modernity.

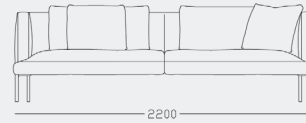

The Exhibition sofa is constructed from New Zealand Pine, German Beech timber, memory foam and feather on a steel leg.
